PROFESSIONAL SUMMARY

Data Analyst and B.Tech Artificial Intelligence scholar with hands-on experience in AI/ML model deployment, full-stack database architectures, and real-world domain analytics. Proven track record through an AICTE-Edunet Data Analytics Internship, performing HR, Agriculture, and Operations data analysis using Python and LLM-assisted workflows. Passionate about transforming complex raw data into strategic business insights.

WORK EXPERIENCE

Data Analytics Intern — Edunet Foundation (AICTE & Vodafone Idea Foundation / VOIS for Tech) | *Aug 2026 – Sept 2026*

- Selected for a prestigious government-backed AICTE internship on Data Analytics via Edunet Foundation & VOIS for Tech program.
- Analyzed real-world domain datasets across Agriculture, HR, and Business Operations using Python, Data Visualization libraries, and LLM assistance.
- Prepared comprehensive analytical reports and automated insights dashboards to drive data-backed decision-making.

TECHNICAL SKILLS

- **Programming & Analytics:** Python, SQL, Pandas, NumPy, Exploratory Data Analysis (EDA), Data Visualization
- **AI, ML & LLM Integration:** Gemini 2.5 Flash OCR, LLM-Assisted Analysis, TensorFlow, Keras, OpenCV
- **Databases & Web Frameworks:** Supabase PostgreSQL, MySQL, MongoDB, Next.js, Flask, Java (basic)
- **Automation & Tools:** n8n Workflows, Razorpay Gateway API, VOIS for Tech LMS, Git/GitHub, VS Code
- **Soft Skills:** Leadership & Team Management, Critical Thinking, Strategic Problem Solving, Process Optimization

PROJECTS

Student Fee Defaulter & Automated Management System | *Sep 2026 – Present*

- Engineered a full-stack fee management platform using Next.js 14, Java Spring Boot, and Python Flask with a centralized Supabase PostgreSQL database to track dues and student records.
- Integrated Google Gemini 2.5 Flash OCR to automate offline bank challan verification, extracting transaction IDs (UTR) and amounts with high accuracy.
- Automated payment workflows via Razorpay gateway, real-time Google Sheets reconciliation, and automated email alerts using n8n and Brevo SMTP.

SMS Spam Detection System | *Sep 2025 – Dec 2025*

- Developed a Python-MySQL SMS spam detection system utilizing NLP techniques such as tokenization and TF-IDF for text cleaning and feature extraction.

Student Performance & Analytics System | *Jan 2026 – Mar 2026*

- Built an interactive dashboard to analyze student academic performance, attendance records, and compute CGPA dynamically, helping mentors track progress.

Fake Prescription Detection System | *Mar 2026 – In Progress*

- Developing a machine learning–based verification system utilizing Pandas, TensorFlow, OpenCV, and Keras to detect fraudulent medical prescriptions.

EDUCATION

G. H. Raisoni College of Engineering and Management (GHRCEMN), Nagpur

Bachelor of Technology (B.Tech) in Artificial Intelligence | *Aug 2024 – June 2028*

- **Academic Highlights:** Achieved 9.38 CGPA in Sem 1 and 9.33 CGPA in Sem 2 (Electrical Engineering). Branch changed to Artificial Intelligence from Sem 3, maintaining a strong 9.30 CGPA.
- **Higher Secondary Certificate (HSC - 12th):** Passing Year: 2024 | Percentage: 74.33%
- **Secondary School Certificate (SSC - 10th):** Passing Year: 2022 | Percentage: 91.20%

CERTIFICATIONS & KEY HIGHLIGHTS

- **AICTE & Edunet Foundation:** Data Analytics Internship Certification (VOIS for Tech Program)
- **IBM SkillsBuild:** Build Your Own Chatbot – Certificate of Training
- **Forage Job Simulations:** Deloitte Australia (Data Analytics) & Software Engineering
